

Scenario 1: Chop off the Head!

Scenario Description: Cut off the head and the body will die. Sounds simple enough! Except the head is usually the toughest part to cut off! Take to the battlefield and destroy any and all foes that stand in your way!!

Deployment: Once the battlefield has been set up, the winner of a roll-off chooses which player will deploy the first unit. The winner of this roll-off must also choose their deployment zone (A or B), as shown on the map opposite. Players deploy their armies using the alternating units method.

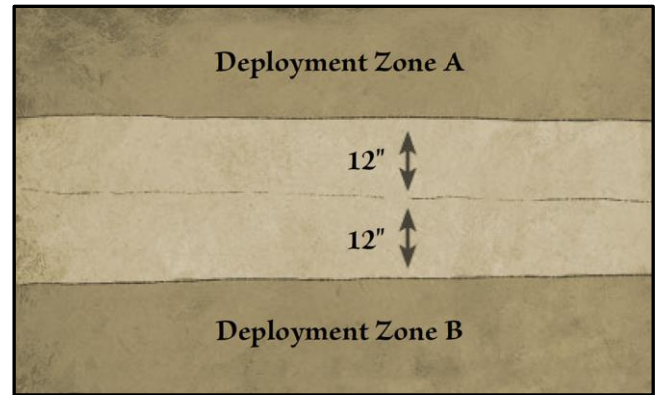

First Turn: Once deployment is complete, the winner of the roll-off takes the first turn. The player that finished deploying their army first adds +1 to their roll.

Game Length: Two hours and thirty minutes or Six Turns, whichever comes first.

Victory Conditions: The winner is determined by victory points.

Special Rules: Destroy the foe's General! **At the end of the game, if your opponent's General has been slain, is fleeing, or fled the table, gain an additional 100 victory points. Note that this is in addition to the "The King is Dead" VP rule.**

Scoring Victory Points

At the end of each game, each player is awarded a number of Victory Points (VP) according to the rules below:

Dead or Fled: The most usual way to win Victory Points is by destroying, routing or significantly reducing the fighting strength of enemy units:

- Each enemy unit that has been destroyed or that has fled off the battlefield is worth a number of Victory Points equal to 100% of its points cost.
- Each enemy unit that is fleeing at the end of the battle is worth a number of Victory Points equal to 50% of its points cost (rounding fractions up). For example, a unit that cost your opponent 351 points to field would be worth 176 Victory Points to you if it is fleeing when the battle ends.
- Each enemy unit that has been reduced to less than 25% of its starting Unit Strength at the end of the battle is worth a number of Victory Points equal to 25% of its points cost (rounding fractions up).

The King is Dead:

- If the enemy General is slain, has fled off the battlefield or is fleeing when the game ends, you win a bonus of 100 Victory Points.

Trophies of War:

- You win a bonus of 50 Victory Points for every enemy standard claimed as a trophy, as described on page 200. Additionally, if the enemy Battle Standard Bearer is slain, has fled off the battlefield or is fleeing when the game ends, you win another bonus of 50 Victory Points.
